PERSONAL DETAILS

Date of Birth : 13/11/2003

Marital Status : Single

Nationality : Egyptian

Gender : Male

OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization. I choose this department because I have made electrical things such as electrical fan and I make electronic things such as 8 bit comparator circuit, I have great social skills with my family and friends, I want to be an excellent engineer and I wish to have a good job and I prefer to work in an international company, Kirolos is currently looking for a suitable electrical engineering position, I prefer to make things to be easy it's my plan to achieve it in some time I can do it

EDUCATION

2008 to 2021

Ahd gded language school

Secondary education

The School distinguishes itself with its problem based learning and case study methods, creating analytical, when I have reached 12 years I wish to be an engineer and now I am studying in Modern-academy for engineering, I have taken many presents from my teachers. When I answer questions that tell what I have to like intelligence, innovative and process oriented mindset. My role in project work has often been goal oriented; however also focus on the HW.

COURSES

I am studying courses such as circuit analysis in modern-academy for engineering through two months.

I learned about many interesting cultures and how to make analysis to any circuits. I can offer you an engineer who is used to interacting with various people with strong language skills.

SKILLS

C++ good programmer

Javascript beginner programmer

Html good programmer
